

PRAKASH POTNURU

9705870038 | prakashpotnuru7278@gmail.com | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Computer Science Engineering undergraduate with hands-on experience building and deploying full-stack web applications using Java, Python, JavaScript, and Django. Skilled in designing REST-oriented backend architectures, relational and NoSQL databases (MySQL, MongoDB), and debugging complex systems to improve reliability and performance. Delivered 3+ end-to-end projects spanning AI-driven tools, automation, and role-based web platforms. Seeking a Software Development Engineering role to apply strong problem-solving skills and a fast learning curve to building scalable, production-grade software.

EDUCATION

- **Bachelor of Technology - CSE (Cybersecurity, IoT, Blockchain)** | Maharaja Vijayaram Gajapathi Raj College of Engineering (MVGRCE), Vizianagaram, AP 2024 – 2027
- **Diploma - Computer Engineering** | Sai Ganapathi Polytechnic 2021 – 2024

SKILLS

Programming Languages: Java, Python, C, C++

Frontend/Web: HTML, CSS, JavaScript, Bootstrap

Backend & APIs: Django

Databases: MySQL, SQL, MongoDB

Authentication: Clerk

Cloud & Deployment: Render

Tools & Platforms: Git, GitHub, VS Code

PROJECTS

InterviewX

[GitHub Repository](#)

- Built an AI-powered interview preparation platform that generates technical questions dynamically and evaluates user responses in real time, enabling structured self-assessment.
- Engineered an end-to-end interview workflow covering question generation, automated answer evaluation, and performance analytics to give users actionable feedback.

Self-Healing SRE Agent

[GitHub Repository](#)

- Built an automated monitoring and self-recovery system that detects failures and triggers corrective scripts, proactively reducing system downtime.
- Applied site-reliability engineering practices to improve application stability and performance under simulated failure conditions.

Campus Issue Portal

[GitHub Repository](#)

- Architected a role-based issue-management platform connecting Students, Faculty, and Admins, streamlining issue reporting and resolution across campus.
- Built distinct dashboards and workflows per role, covering issue submission, assignment, status tracking, and resolution — improving turnaround visibility for all stakeholders.

CERTIFICATIONS & EXPERIENCE

Python Full Stack Virtual Internship

2026

AICTE EduSkills | Remote

- Built and deployed dynamic web applications in Django, implementing structured CRUD operations and REST-oriented architecture for scalable data handling.
- Applied Object-Oriented Programming (OOP) principles and systematic debugging to design maintainable, production-ready software modules.

Java Full Stack Intern

2023 – 2024

Tanvasi Technologies

- Collaborated in an Agile team of developers to build and deploy full-stack Java applications through iterative sprints and code reviews.
- Debugged and optimized existing codebases, improving application performance and system reliability across releases.
