

PRAKASH POTNURU

9705870038 | prakashpotnuru7278@gmail.com | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Computer Science Engineering undergraduate specializing in full-stack web application development and software solutions. Proficient in programming, databases, and building robust backend architecture with hands-on experience in HTML, CSS, JavaScript, Java, and Python. Demonstrated strong problem-solving and debugging skills. Quick learner passionate about developing scalable and reliable applications and applying technical knowledge to solve real-world challenges as a Software Development Engineering Intern.

EDUCATION

- **Bachelor of Technology - CSE (Cybersecurity, IoT, Blockchain)** | Maharaja Vijayaram Gajapati Raj College of Engineering (MVGRCE), Vizianagaram, AP | 2024 – 2027
- **Diploma - Computer Engineering** | Sai Ganapati Polytechnic | 2021 - 2024

SKILLS

Programming Languages: Java, Python, C, C++

Frontend/Web: HTML, CSS, JavaScript, Bootstrap

Backend & APIs: Django

Databases: MySQL, SQL, MongoDB

Authentication: Clerk

Cloud & Deployment: Render

Tools & Platforms: Git, GitHub, VS Code

PROJECTS

Library Management System

Live Demo | [GitHub Repository](#)

- Developed a full-stack web application for streamlined management of books and user records.
- Engineered robust backend development by implementing complete database CRUD operations utilizing Python, Django, and MySQL/SQL logic.

Self-Healing SRE Agent

[GitHub Repository](#)

- Designed an automated system monitoring and recovery tool leveraging scripts to proactively reduce downtime.
- Focused on application development and problem-solving to build scalable and reliable applications for system performance.

CERTIFICATIONS & EXPERIENCE

Python Full Stack Virtual Internship

2026

AICTE EduSkills | Remote

- Developed dynamic web applications utilizing the Django framework to execute structured CRUD operations and REST-oriented architecture.
- Applied Object-Oriented Programming (OOP) principles and debugging techniques to design scalable and maintainable software.

Java Full Stack Intern

2023 – 2024

Tanvasi Technologies

- Collaborated within an Agile environment to build and deploy robust Java-based full-stack applications.
- Performed comprehensive debugging and problem-solving to optimize code, significantly enhancing application performance and system reliability.
